

PROFILE

Third-year Data Science engineering student at INSEA. Expertise in statistical modeling (ML/Deep Learning), expert systems, and data pipelines (ETL/Lakehouse). Hands-on experience in NLP, data engineering (Python, SQL, dbt), and backend development (FastAPI, Docker). Seeking a **final-year internship (PFE)** to design, optimize, and deploy high-impact data-driven solutions.

EDUCATION

Engineering Degree in Data Science National Institute of Statistics and Applied Economics (INSEA), Rabat	2024 – Present
University Diploma (DEUST) — Mathematics, CS, Physics Faculty of Science and Technology, Fez	2022 – 2024
High School Diploma — Physical Sciences Imam Ibn Hanbal High School, Fez	2022

PROFESSIONAL EXPERIENCE

Data Science Intern Bifolia	July – August 2026
- Designed a backend expert system for decision support (water balance calculation and phytosanitary risk assessment) - Orchestrated ETL pipelines (Airflow) and geospatial modeling (PostgreSQL/PostGIS) under Docker - Built a robust FastAPI application for real-time inference of predictive models - GitHub: github.com/riyad-77/SmartFellah	
Statistical Analysis Discovery Internship High Commission for Planning (HCP) — Regional Directorate of Fez-Meknes	July 2025
- Analyzed the National Survey on the Informal Sector - Processed and explored raw data to identify structural characteristics of informal production units	
Appointment Scheduling Agent NL CALL	January – August 2023
Managed outbound call campaigns and qualified appointment booking	

PROJECTS

Modern Data Lakehouse — Bank Reviews Analysis Python (Selenium) · DuckDB · dbt · Airflow · Power BI	2025–2026
- End-to-end pipeline: web scraping, Medallion transformation, and interactive dashboarding - GitHub: github.com/riyad-77/Bank-Reviews-Lakehouse	
NLP Spam Detection Python · TF-IDF · BERT (Transformers) · scikit-learn	2025–2026
- Text classification comparing TF-IDF vs BERT embeddings - GitHub: github.com/riyad-77/NLP-Spam-Detection	
Stock Market Risk Analysis — Data Viz Power BI · Yahoo Finance	2025–2026
- Risk monitoring and analysis dashboard for stock markets - GitHub: github.com/riyad-77/Power-BI	
Time Series Analysis R · Statistics	2024–2025
- Modeling quarterly business bankruptcies in Paris - GitHub: github.com/riyad-77/Series-chronologiques	

EXTRACURRICULAR ACTIVITIES

President of INSEA IT Club	Sept. 2025 – June 2026
- Led the club and managed the IT Academy program (LLM Workshops, Web Development) - Negotiated 100 DataCamp licenses and coordinated a certified Deep Learning workshop led by an NVIDIA ambassador	
Competitive Programming Coach	Sept. 2025 – June 2026
Mentored and prepared students for programming competitions (algorithms, data structures)
